

KENNET VALLEY HASH HOUSE HARRIERS

Mag No. 032 – The Roebuck Marlborough

Sunday 25th April 1999 the storms of the day before and of the day before that, and the floods of the previous week, had now abated, the skies still bulged with rain, wind whipped across the grey hills, not your usual KVH3 fine weather for change was in the air.

The run, not from the pub but miles away after a high-speed car convey. So it was that we reassembled on the outskirts of Savernake Forest, after a quick re-sume of hash trail signs it was off through the Bluebell covered woods.

Margaret being our Hare, we all had secretly placed flour detectors about our persons except Navy Mike being an officer but he did save the day when Ray's flour detector found the return "homeleg" prematurely, wrong footed again **with so much** flour about.

Our hare kept in Touch with the runner popping up in her little red Ka time and time again unaware the Earl of the forest was chasing her in his silver Audi.

A chocolate stop gave the runner a sweet while Margaret sweet-talked to the Earl.

The runner meet the walker briefly (except Jeremy, miles away in the lead) before doing one last long loop passing the Earls des-res, Ian went briefing off trail and was pulled back with our On On calls. Then a bluebell carpet finish, the runner just in front of walkers fantastic. Back to the pub, which was not far away. Richard was given the horn only to leave without it - somebody on his mind? On On.
