

KENNET VALLEY HASH HOUSE HARRIERS

Mag No 094 – Sunday 9th September 2001 – The Crown @ Aldborne

Thanks to Val and Dave for our latest in Sunday morning outings. It was nice to see some new faces this morning, if you were one of them I hope you enjoyed it.

As normal we started with the explanation of the flour markings, I cannot help wonder what happened to the Long/Short split markings, Dave must have sorted that out as he went.

With the runners looping the village to start with including a missed circle which sent us of up a very long hill before we decided to back track and try a different route.

Shortly meeting up with Val sat on a wall, at which time Paul decided to take a rest and watch the circle, when the back markers arrived this caused a small scuffle on which one of our more mature runners would monitor said circle. Eventually Val informed us which way to go and off we went again.

There were a lot of very long runs through fields with sparse flour and very few circles to help keep the field together. Subsequently the field spread out quite quickly with a small group up front which I was in so what was happening behind I cannot comment on.

At some stage we passed the walkers in one field or another, after a while they all looked the same. Shortly after that Val was sat on a car waiting for us to pass again, sending the 3 of us in all the available directions. When the correct route was found we were off again through, yes another field.

The final part of the route caused some of our runners a minor problem with their feet, or should I say their legs, arms & shoulder. Namely they wanted to use these to run with instead of their feet, so with some blood on the outside of their bodies they arrived back to some creams and comfort from their fellows.
