

KENNET VALLEY HASH HOUSE HARRIERS

Mag No 114– Sunday 16 June 2002 – Pelican in her Piety, Ogmore by Sea

Thanks to Margaret & Dave for a really great trail as always.

Turn out of our regulars was disappointing however our Welsh friends and our dancing friends made up to a good group. Even though our Welsh friends didn't know when to turn up and were a little late.

After the normal explanation of the markings including one of those awful check backs we were off, at least the 2 runners were with the walkers following behind. What a start it was passed an old castle and over or was it through a river, those turtlebacks were a bit slippery and I think one moved but thankfully no one fell in. Shortly over a foot bridge and there it was that horrid check back, the horse riders thinking we are nuts first running passed and then hunting back past at a walking pace. Back on the trail and off again, then we encountered Margaret's trademark or should I say didn't where the hell was the flour! After a little detour we found the Hares at Dave's car with some drinks, by which time our Welsh friends had arrived and were leading the hunt. Eventually we found our way to the beach, and about time to, I was beginning to think we weren't near the sea. Then guess what we lost the trail again, after some rock climbing and a little rescue from Dave we headed in the general directing of the pub and the football match.

The afternoon was filled with fun and games football, rounders etc. as normal Margaret can really put on a great summer hash in great surroundings.

A big thank you to PQ for a wonderful dance which he laid on for free, all we paid for was the hall which was just the right size and a great atmosphere.

Weather, over cast to start, in fact the hares had been in rain laying the trail, by the afternoon this sun was out and the evening was a beautiful blue sky.

Horn passed on..... or was it!

Dear Mrs Bradbury,

Thank you for your kind letter of compliment received after your visit of the 16th June.

It is pleasing when people take the time to thank my staff for their efforts and naturally I posted up the letter for all the staff to see. All of us take a great deal of pride in what we deliver and how we deliver it, I hope it is a reflection on the fact that we actually do want to see happy customers and for them to return with their friends, it is nothing I have either told nor taught them to do.

Thank you once again.

Yours Sincerely

Stephen J. Fisher
