

KENNET VALLEY HASH HOUSE HARRIERS

Mag No 0016 - Sunday 13th September 1998 - The Horseshoe at Mildenhall

Your Scribe this week - Navy Mike

Another lovely late summer day and the core of loyal runners that make this hash work were there - Jeremy Margaret Richard Ian - and walkers Charlie and Julia. The trail was supremely well crafted by hare Navy Mike through delightful countryside and along interesting paths and byways - the hounds ran down to the river then along the incredibly muddy bit by the pig farm and then up to the old railway line. Along the railway for about half a mile then down a steep muddy bank past some houses and out across the fields back to the river again. And so it went on o'er hill and dale until sweeping down a back lane into Mildenhall again. The pack kept up the tradition of Jeremy racing away at the front, Richard following up the rear at steady pace and all the others in a little bunch in between.

We had the front bar to ourselves again for the apres which was nice. Jeremy presented the Hash-Horn to Margaret (so she will have to carry it round the Marlborough 10K on the 27th). And Navy Mike thanked himself modestly for another fabulous trail and complained bitterly that Charlie and Julia had totally ignored the short trail and had gone off on a walk of their own.
